DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-12, drawn to fluoropolymer.

Group II, claim(s) 13 and 20-23, drawn to molded material.

Group III, claim(s) 14, drawn to method of using molded material.

Group IV, claim(s) 15-19 and 24, drawn to laminate.

2. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Claim 1 is either obvious over or anticipated by JP 6-80733 A. Accordingly, the special technical feature linking the four inventions, fluoropolymer containing not more than 0.05% by mass of an oligomer, does not provide a contribution over the prior art, and no single general inventive concept exists. Therefore, restriction is appropriate.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
